

Level 3, Grade 4 Assessment Task Semester 2, Term 3

Location

The Task: Students completed a pre test before beginning the topic of location. After the topic was taught and students took part in a range of location activities, they were asked to correct their mistakes from their pre test. The purpose of correcting their mistakes was to show their improvement in location knowledge and skills. The table below has been completed by your child's teacher using the information off the test and their observations during class activities. The highlighted points are what your child knows about location.

Name: *Holly Spooner*

Students Working Level for VELS Level 3 (grade 3/4)	Points of Achievement for Level 3 (grade 3/4)
	Can determine the direction of north by considering the position of the sun.
